

Business Intelligence Consultant Junior

INTERNATIONAL EXPERIENCES

What can I solve for your company?

1. I deliver **professional advices** to stakeholders on different levels.
2. I have knowledge about dashboards and I have affinity with BI and creating **actionable insights** to make better business decisions.
3. I am able to **present ideas** in a **persuasive** way to the team and customers.

Why you have to hire me?

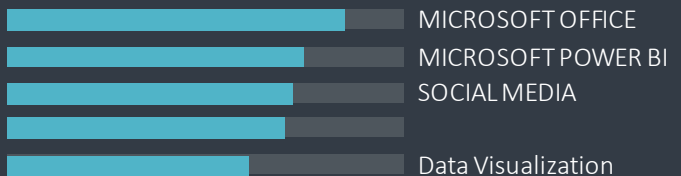

1. My great ambition is to be and stay **creative** and **adapt** myself due to the needs of your company
2. My **human approach** and **collaboration** with colleagues is valuable and decisive for a successful team.
3. I am curious and I **take initiative** to stay up to date with trends and developments in my field.
4. I am **flexible** and I always embrace **innovation** to grow and **improve results**.

What companies need to consider hiring me?

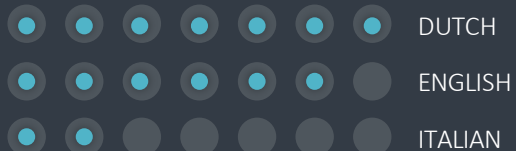

- If you search a **social** teamplayer with affinity with IT and the digital transformation.
- If you need someone who **thinks and analyses** situations before taking action.
- If your team need an **extrovert person** with the capacity to understand your issues by **perceiving**.
