

# Junior Project Manager

## UNIQUE INTERNATIONAL EXPERIENCES

### What can I solve for your company?

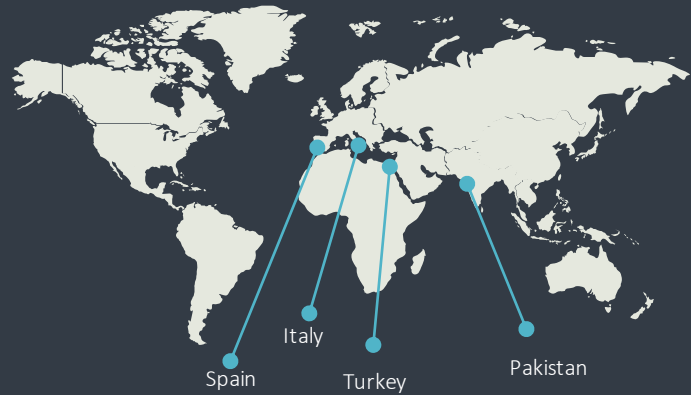

1. I follow projects from design till realization phase and streamline project progress.
2. I structure, plan and budget the project works and provide technical support to tender office.
3. I manage teams and interact effectively with clients
4. I maintain communication with all stakeholders involved in the project.

### Why you have to hire me?

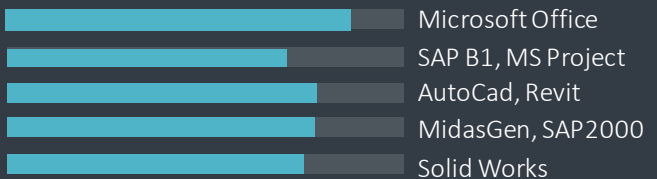

1. I have great communication skills and I get energy while achieving company goals through intensive collaboration
2. My adaptability is developed during my international work and educational experiences
3. I take initiative in a team to discover together how we all can develop on a personal level

### What type of company is a good match for me?

- If you search an open and social Project Manager.
- If you like an employee who thinks and analyse things instead of doing things based on a feeling
- If an extrovert person with a humble way of communication is an additional value in the team.
- The best results come when I perceive the situation before I start thinking about a plan and solution.
